How sad **Venice** is
Only a year later
How sad Venice is
If you don't love each
other anymore

We are looking for words
That no one will say
And you want to cry
It can't be done anymore

How sad Venice is
If **There is a boat**
with Just a gondolier
Who looks towards you

And he doesn't ask you
anything
Because in **your eyes**
And inside your mind
There is only her

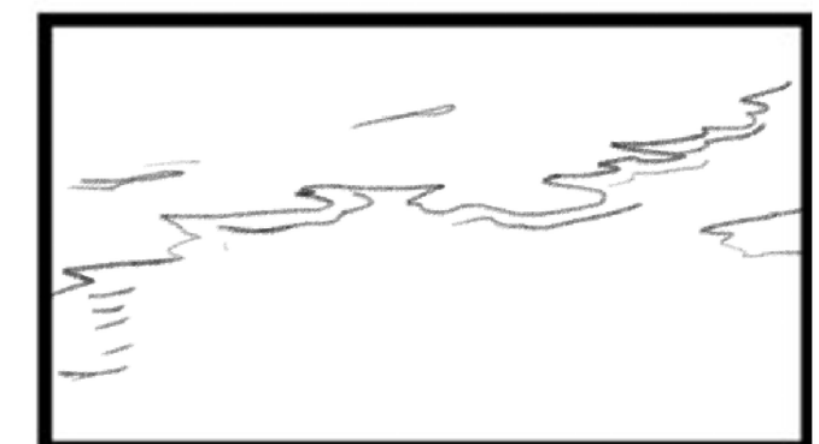

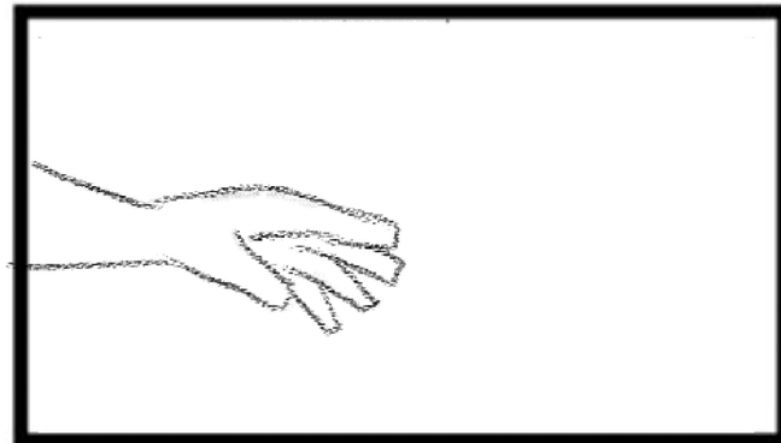

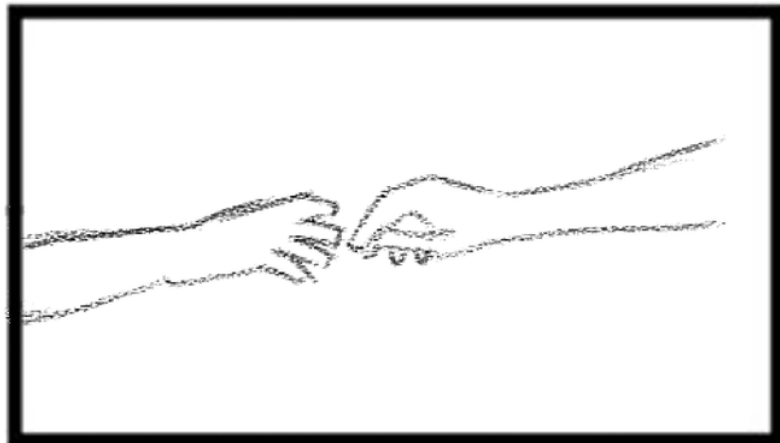

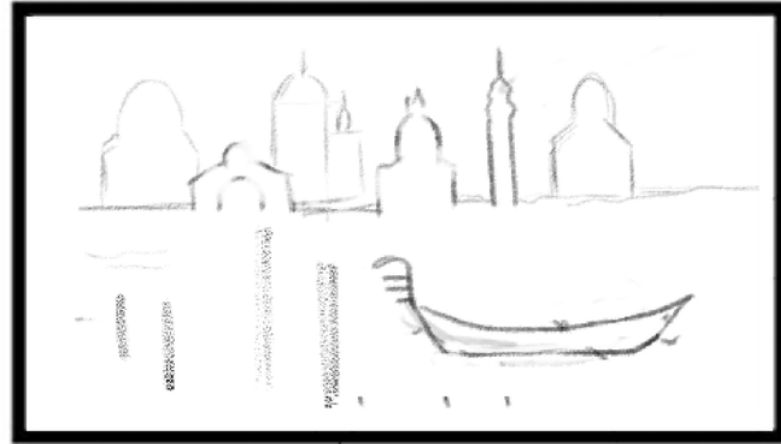

Museums and churches
They open for us
But they don't know it
That **you're not here now**

How sad Venice is
The lagoon in the evening
If you are looking for a
hand
Which is no longer found

It's ironic
In front of that moon
Who one day saw you as
mine
And he(moon) doesn't
see you anymore

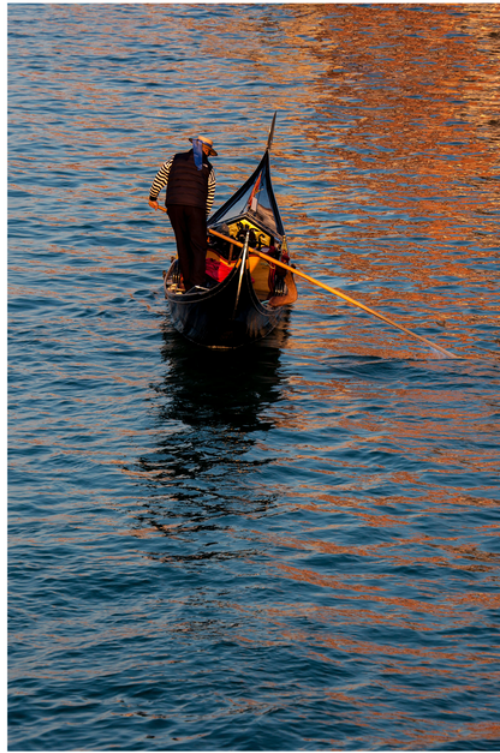

**Goodbye seagulls in
flight**
That one day you said
goodbye
Two black dots on the
ground
Goodbye from her too
